

VST-Enhanced Personnel TAKE NOTE!

Chief Richardson,

Per our discussion, and discussion with Occupational Health, it is agreed the newly formed Enhanced Technician position within the Volunteer Firefighter ranks will receive a **complete NFPA 1582 physical exam yearly** to include the EKG, labs, etc. Additionally, they will have to satisfactorily complete the **NFPA 1582 fitness assessment**. Because they will not be utilizing SCBAs, they will not complete the mask-fit portion of the fitness assessment.

Battalion Chief Deborah L. Gaudet

Health and Safety Officer

Virginia Beach Fire and Rescue Department
